HD BIKE CAMERA + REAR LIGHT

THE DASHCAM ENGINEERED FOR CYCLISTS
SAFER · SMARTER · SHARPER · SMALLER

CYCLIQ

Safer · Smarter · Sharper · Smaller

Cycliq's new Fly6 CE integrated rear-facing bike camera and safety light has been engineered to give cyclists super-sharp video recording, a more powerful light and impressive battery life. It's also smaller and lighter than previous models, and packed with new features ...

Super bright rear light

The 100 lumen light lets you clearly be seen day or night. Choose from three light modes and three dimming options, or you can operate it with camera only.

Full HD camera with audio

Shoot super-sharp video at up to 60 frames per second in 1920 x 1080p resolution with audio. The ultra-wide 135° viewing angle and 6-axis image stabilisation captures action footage, number plates and incidents with amazing clarity.

Ride · Record · Edit · Share

The Fly6 CE connects via **ANT+** to your compatible Garmin bike computer to remotely control the camera and lights. The camera connects with the CycliqPlus mobile app through Bluetooth; and to your Mac or PC with USB. The free CycliqPlus Desktop software lets you edit your footage for Strava overlay and social sharing.

IN-BUILT
ALARM

Be safe

Smart video looping means you'll never run out of storage space on your microSD card. And if the Fly6 CE detects you've been involved in an incident, it automatically locks and preserves the footage.

Be secure

The in-built alarm alerts your smartphone via the CycliqPlus app the moment your bike is moved. For extra security, the light flashes and the camera captures everything on video.

When your battery runs low, we'll still get you home safely. The camera automatically turns off giving the light enough battery power for another 60 minutes.

Massive battery power

With up to 7 hours operating time, our industry-leading battery will last longer than your ride. A full recharge only takes 2 hours.

1/8TH TURN MOUNT
ATTACHES TO A NEW
RANGE OF ACCESSORIES

Easy come - Easy go

The new quick-release system lets you attach or remove the Fly6 CE with a simple 1/8th of a turn. Our accessory range now includes the Telescopic Mount which attaches to the seat rails so there's no need to move the saddle bag or tool kit.

Small - Sleek - Tough

The pocket-sized Fly6 CE weighs in at just 110g (3.5 oz), but don't let its size fool you. We've built it tough to withstand knocks, and the nanotechnology makes it weather resistant.

UP TO 7 HRS BATTERY LIFE
FULL RECHARGE IN 2 HRS

Actual Size

Better than ever

Designed for competitive cyclists, commuters, mountain bikers and those who simply ride for fun, the new mounting solutions mean the cameras fit onto more types of bike.

While Fly6 keeps its eyes and ears on the road, you can relax and enjoy the ride.
