

CYCLIQ

Never ride alone

Still the best all-in-one cycling safety system

FLY12 SPORT

QHD BIKE CAMERA + FRONT LIGHT

DESIGNED IN AUSTRALIA

Cyclists deserve to feel safe on the roads

Never ride alone

Cycliq is a cycling safety technology company on a mission to empower all cyclists to regain their right to feel safe on the road.

We believe that all road users should feel safe. **Safety, awareness and accountability benefits everybody.**

The new Fly12 Sport is an essential safety asset for all cyclists. With optimal lumen output for all conditions combined with a purpose built camera, the Fly12 Sport is your eyes on the road.

Smart safety

Technology plays a crucial role in cycling safety. The Fly12 Sport gives you peace of mind with continual recording and smart incident detection ensuring the best and worst moments are captured. The powerful front light ensures you are visible on the road, and can be safe and be seen.

Works hard, looks good

Smart safety has a new look. Where form and function collide, we've designed a product so easy to use, that it seamlessly becomes habit.

Designed in Australia, the Fly12 Sport is built to last.

Safety has a new look

Feel safe

“Recording your ride makes you feel safe.”

We hear it all the time from our customers. The Fly12 Sport is your eyes out front - lighting the way and ready to capture anything that happens with continual recording and smart incident detection.

Be seen

You need to be seen to be safe.

The Fly12 Sport's bright headlight will guide you safely on the brightest of days and the darkest of nights.

Go the distance

Midweek commute, or chasing some KOM's **the Fly12 Sport is your companion on the road.** With up to 7 hours of continuous recording in camera only mode the Fly12 Sport lasts as long as you do!

Whatever proof

Built tough for global conditions.

Water resistant with intuitive design features to keep out the dust, dirt and destruction.

Eyes front

Stand out

Be seen day and night, with multiple light modes designed to increase your visibility.

Built tough

Designed in Australia, the Fly12 Sport is built for the toughest of cycling conditions.

Ride for hours

Punch out up to 7 hours of continuous recording in camera only mode.

Easy to use

The new rear display, only available on the Fly12 Sport, makes smart technology easy to use.

Always recording

Auto-looping means you never run out of space on your SD card and you can easily lock footage you want to keep.

Black box technology

Hit the deck and the Fly12 Sport will automatically trigger incident protection mode, locking the video and audio either side of the incident.

Capture number plates

Super-sharp wide angle QHD camera will catch anything you miss.

#safetech

More of what you need,
nothing you don't.
